

ALDRIN LIJO E M

 ALDRIN1704 —  aldrin-lijo —  Portfolio —  aldrinlijo2004@gmail.com —  +91 75987 15213

SUMMARY

Passionate about software development with hands-on experience in full-stack development, databases, and machine learning through academic and personal projects. Strong problem-solving abilities, willingness to learn new technologies, and an interest in building efficient software solutions. Eager to contribute to challenging projects and grow in a technology-driven environment.

SKILLS

Languages: Java, Python, SQL
Web Technologies: HTML, CSS, Flask
Database & Tools: MySQL, MongoDB, Git, GitHub, VS Code, Arduino IDE, PyCharm

PROJECTS

Task Manager

Built a full-stack project management application using React, Spring Boot, and MongoDB featuring project tracking, task assignment, Kanban workflows, subtasks, activity history, and due-date alerts. Enabled real-time task status updates and centralized project monitoring across multiple employees.

[GitHub](#)

ClassMate – AI Chatbot

Developed a BERT-based NLP chatbot using Python to automate query handling and improve response accuracy. Implemented intent recognition and response generation to reduce manual workload. Integrated backend logic with a user-friendly interface for efficient interaction.

[GitHub](#)

Customer Risk Prediction

Built a machine learning model using Python and scikit-learn to classify customers based on risk levels. Performed data preprocessing, feature engineering, and model evaluation to improve prediction accuracy. Enabled data-driven decision-making for automated risk analysis.

[GitHub](#)

IoT-Based Anti-Theft and Accident Alert System for Bikes

Developed an IoT-based system using NodeMCU, MPU6050, and vibration sensors to detect accidents and abnormal movements. Implemented RFID authentication, GPS tracking, and theft detection mechanisms for enhanced vehicle security. Integrated ThingSpeak for real-time alerts, monitoring, and data visualization.

INTERNSHIPS

Jan–Mar 2026	Software Intern, Adventure Technology Solutions Pvt Ltd Worked on smart tracking and monitoring systems using IoT technologies. Developed solutions integrating ESP32, sensors, and cloud platforms while improving debugging and system design skills.
Jun–Aug 2025	Technical Team Intern, VCodez Worked on technical problem-solving and development tasks while contributing to software-based projects and team activities.
May–Jun 2025	Software Engineering Intern, Alpha Ori India Pvt Ltd Applied software development practices and collaborated with teams on real-world projects while gaining exposure to industry workflows.
Jun–Jul 2024	Frontend Developer Intern, Big Bucks Innovation Built responsive web pages using HTML, CSS, and JavaScript while improving frontend development and UI design skills.

EDUCATION

2022–2026 **B.Tech Information Technology**, St. Joseph's Institute of Technology, Chennai
CGPA: 8.011/10

ACHIEVEMENTS

- Presented research paper at IEEE ICRISSET 2025 conference
- Presented research paper at IEEE ICSES 2026 conference
- Secured First Place in Web Design Competition conducted by SIMATS
- Secured First Place in CodeEnz'24 conducted by Sri Sai Ram Institute of Technology

LEADERSHIP & ACTIVITIES

2025 Event Organizer – Incognito Symposium
2024 Event Organizer – Incognito Symposium
2024 Volunteer – Smart India Hackathon
